

Turn-key Handheld CAPI/CASI Solution

*Increase efficiency with
today's technology!*

Market researchers know the benefits of using computers for quantitative research, but did you know that the same benefits are affordable in a handheld solution? Now you can have an effortless data collection solution that puts the power of computing in the palm of your hand. Through Feedback Systems, the products are available and the benefits are enormous!

- Unquestionable Accuracy
- Unparalleled Speed
- Extreme Efficiency – Achieve skip patterns, rotations, and branching with seamless automation
- Enriched Data - beyond expectations
- Very Simple to Use
- Lower Cost

With Feedback Systems, no questionnaire is too large or too complex. And our software accommodates all question form factors. Simply send us your questionnaire and you'll get a turn-key solution including hardware, programming, field support and data reporting.

Call us today at 888.463.6494 to learn more about how Feedback Systems' solutions can enhance your data collection objectives!
